Located on the stunning shores of Tampa Bay, *Bayview Isle* is a beautiful outdoor living space that combines modern design with the natural beauty around it. Designed and built by the award-winning *Ryan Hughes Design* team, this custom space

is made to feel both simple and dramatic, with thoughtful touches that make it a perfect retreat both day and night.

At the heart of Bayview Isle is an infinity-edge pool and spa, designed to give the illusion that the water flows directly into the bay. The all-glass tile waterfall edge adds a clean, modern touch while blending seamlessly with the surroundings. The pool area is surrounded by stylish plantings and structures that enhance the peaceful atmosphere and bring nature right into the design.

One of the standout features of Bayview Isle is the attention to comfort and style. A private lounging pergola offers a peaceful spot to relax, while porcelain stairs lead down to a cozy fire lounge by the water with custom seating. It's a space made for both quiet moments and lively gatherings, balancing relaxation with entertainment.

When it comes to entertaining, Bayview Isle shines. The outdoor kitchen is fully equipped with high-end stainless appliances, making it perfect for cooking and hosting guests. The kitchen area features custom stone and glass finishes, with mirrored shelves adding a modern touch. A large outdoor television built into the kitchen wall ensures everyone can enjoy the space, whether they're cooking or relaxing nearby.

The design of Bayview Isle flows naturally from one area to the next. The kitchen, dining, and lounging spaces are all connected under the second-story terrace, offering plenty of covered areas to entertain guests or unwind, rain or shine.

Next to the pool and spa, a modern metal pergola provides shade for a lounge area with faux turf, adding texture and contrast to the sleek design. Stepping stone pavers lead from the entrance to the pool, guiding visitors through the space. On the other side of the pool, a tiled terrace with chaise lounges and designer umbrellas offers another relaxing spot.

As the sun sets, the lighting design comes to life, extending the beauty of the space into the evening. Illuminated steps lead from every area of the retreat down to the private dock on Tampa Bay, offering stunning views and making the space perfect for enjoying day or night.

Bayview Isle is an exceptional example of how modern outdoor living can connect with nature, creating a space that's both stylish and peaceful. With its thoughtful design and beautiful surroundings, Bayview Isle is not just a place – it's an experience.
