ROOM[®]**
SPECIAL ISSUE

Modern Serenity

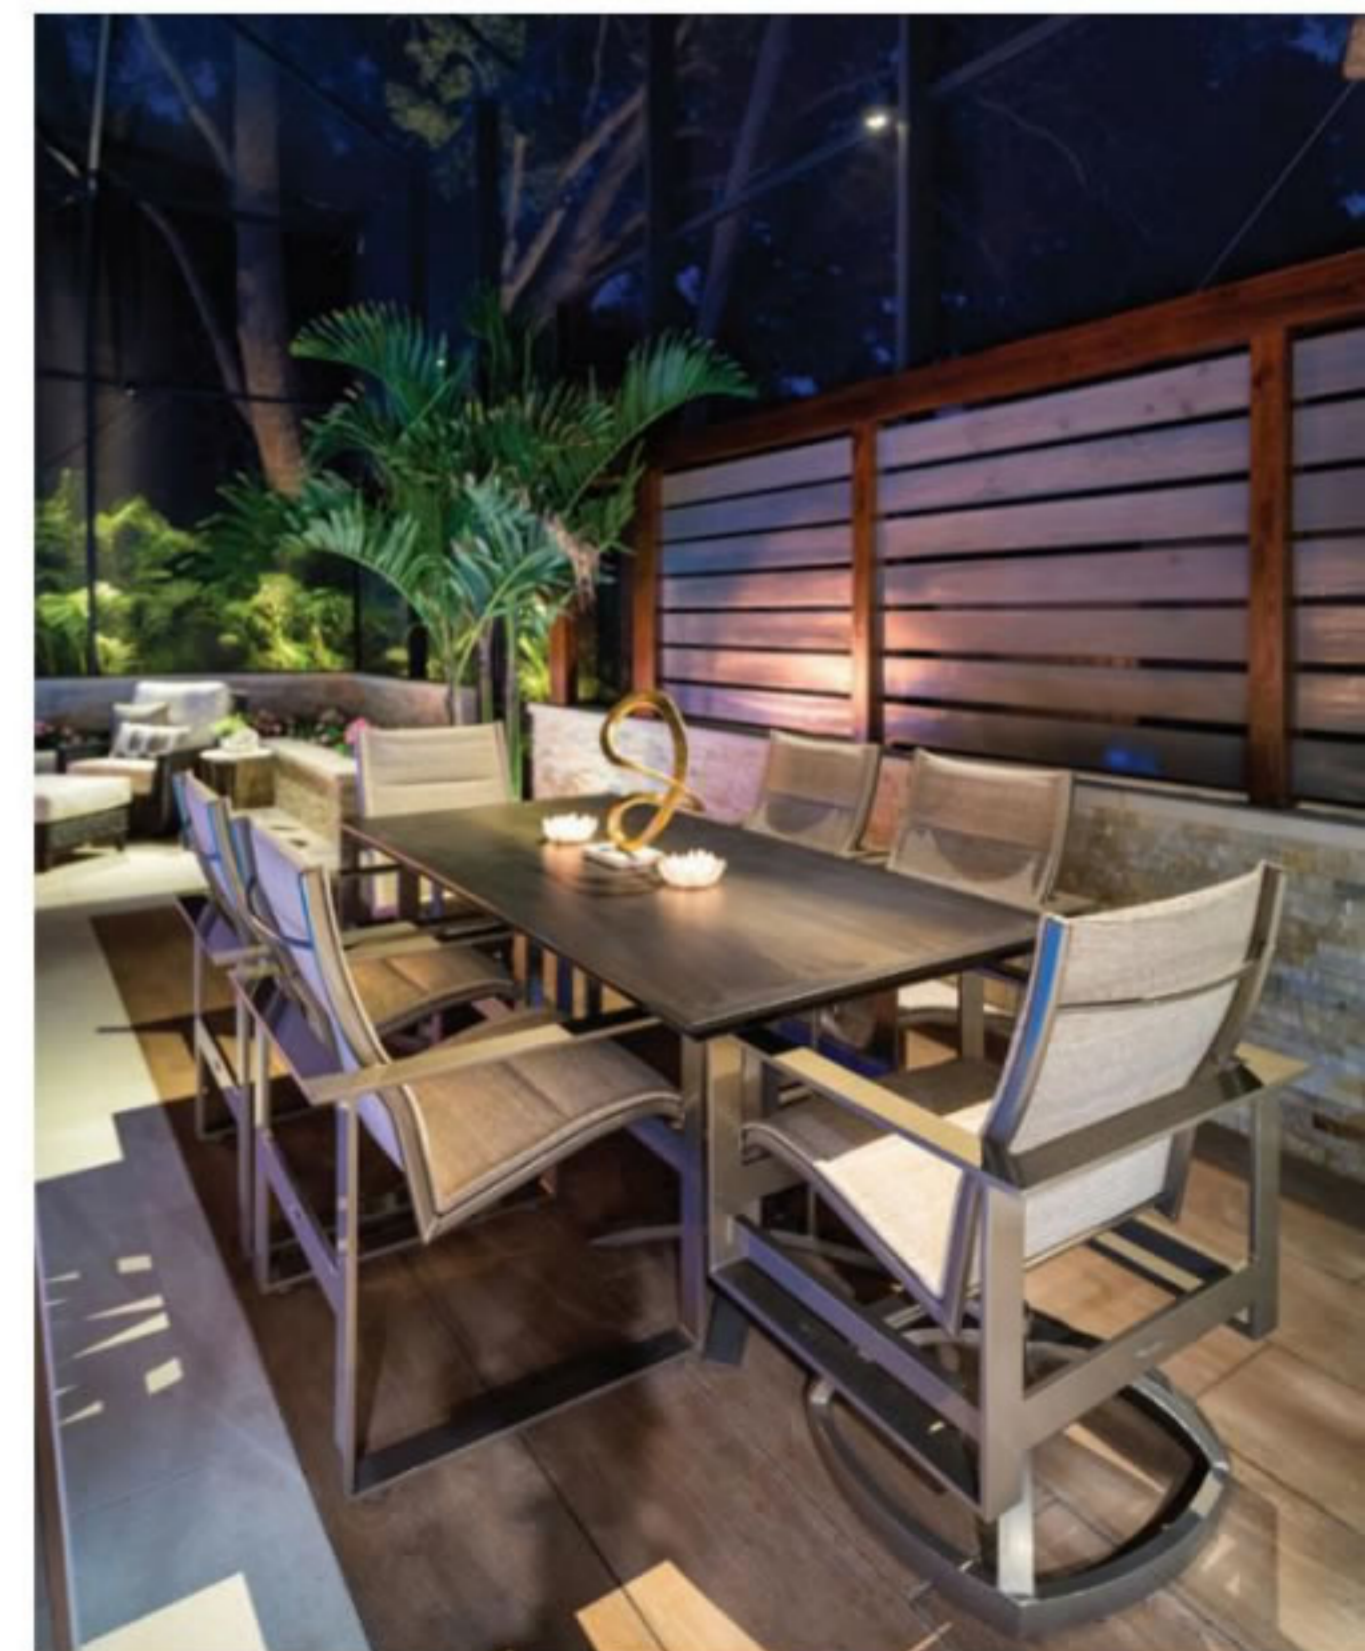

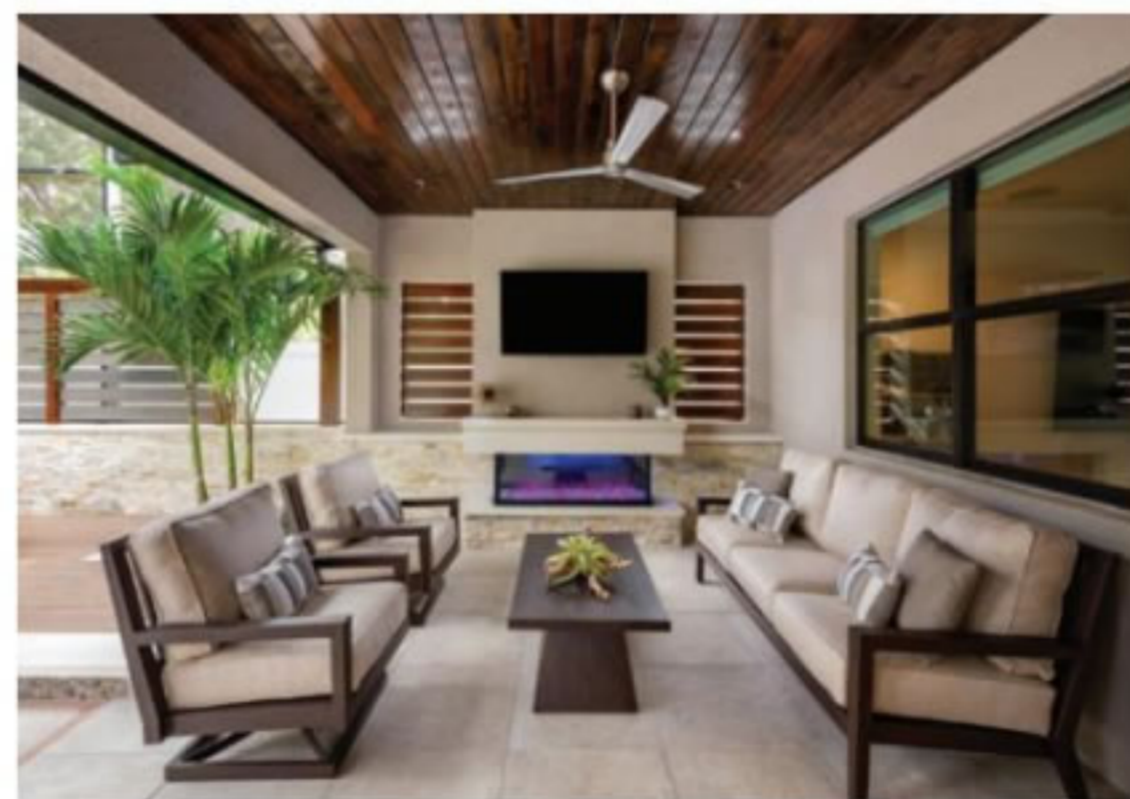

The name of this outdoor retreat – Modern Serenity – is inspired by the chic yet calming vibe of the space. Completely enclosed by a glass structure, the secluded private oasis is a peaceful escape for year-round enjoyment. A covered outdoor living room along the rear of the house makes a seamless transition from the interior space, thanks to indoor-style furnishings, a large television, and a cooling fan that hangs from the richly stained wood ceiling.

At night, the space is aglow with dramatic firelight. Two fire-bowl fountains tumble into the pool water beside the two partially

submerged loungers on the sun ledge. Water spouts incorporated into a custom, contemporary, linear fireplace, spill into a spa lined with decorative glass tiles that extend from the side of the pool. The third fire feature – a linear, gas fire pit table – adds coziness to a pergola-topped lounge area with a deep-seating outdoor sectional.

A gourmet outdoor kitchen, sheltered under a solid roof, includes a premium gas grill with ventilation hood, a refrigerator, and storage built into a ledgestone island with bar-height seating. Other special features of the Outdoor Room include a sophisticated outdoor shower and a poolside lounge bed, the perfect spot to relax with a nap.

Design/Builder: Ryan Hughes

Company: Ryan Hughes Design Build, Tampa, FL

Website: www.ryanhughesdesign.com

Project Size: 3,500 sq. ft.

Materials: Ceiling – Wood veneer in lounge area; Enclosure – Glass; Floor – Travertine tile; Island Base – MSI Ledgestone; Fire Pit Table – MSI
